UNCRAPIFY YOUR FUTURE!

Innovation is usually presented both imperative and complicated. You'd better do it now, and you'd better find somebody who's good at it. If that's the kind of doomsayer message that you love hearing, then I'm sorry for you. But if you'd like to present innovation as a simple process that literally everyone is capable of performing, then you might enjoy Uncrapify Your Future! Because every innovation in every industry – from automobiles to streaming music, coffee cup holders to wartime treaties – follows the same simple and straightforward pattern. Uncrapify Your Future! will leave you with the understanding that we are ALL capable of greatness. Oh, and this keynote is hilarious. How innovative!

MOVING TO THE NEW NORMAL IN REAL ESTATE

The pandemic has accelerated some pre-existing real estate trends: suburban growth, consolidation and pruning in retail, restaurants, entertainment, travel and leisure. These trends are likely to continue over the next several years, causing a re-pricing and re-positioning across the real estate spectrum. This session will focus on the changes which have already occurred and look to future possibilities!

US VS. THEM

You’ve undoubtedly been told there are four (or five) distinct generations operating side-by-side in today’s working world. You’ve then probably been told that you need to just deal with all these different people because they’re not going away and they’re not going to change how they operate. If that advice suits you, fantastic. However, if you’ve ever felt like you’re the only one who’s being asked to make any changes, then Us vs. Them is exactly what you need. In this hysterical keynote, you’ll learn a simpler way of looking at your own generational picture, and you’ll also learn how to understand, recognize, and resolve every generational issue facing today’s workforce.
